- ▶ 8,325 visitors, 873 delegates

ASIA-PACIFIC

THE FUTURE OF COMPOSITES!

An international exhibition with a strong foothold in the Asia Pacific MEA area

JEC Asia reflects the composites industry's tremendous growth in Asia:

- In 2000, Asia accounted for 25% of global composite production.
- By 2008, the percentage had risen to 42% and could reach 50% by 2015.
- The composite market in Asia is driven mainly by economic growth. Since 2002, Asia has experienced high growth rates, at around 8% per year.
- With major growth markets in China and India, and significant growth in the Middle East, Malaysia, Vietnam and Indonesia, the current composite market amounts to 18 billion euros in Asia.

JEC Asia reflects the request for Processes industrialization in the Middle-East, Asia-Pacific, Australia:

- The booming market requires improved manufacturing processes (to date Manual processes still represents 31% of all processing methods in Asia, compared with 16% in North America and in Europe).
- The use of automated processes is growing steadily in Asia Pacific (for cost reduction, product quality increase and reproducibility without human factor).
- 35% of exhibitors are showcasing equipment, machines and software solutions.

Singapore, an ideally central location in Asia

Singapore has been chosen for the JEC Show Asia for its exceptional location at the crossroad of the Middle East, Asia and Australia.

Its ultra-safe environment (Political stability and no terrorism threats) and high-quality level of service, sophisticated infrastructures and affordable accommodations and transportation means make Singapore one of the best possible location for business events in the world.

Singapore is an acknowledged aeronautical hub and financial platform, with many universities and headquarters of multinational companies.

The only event in Asia that brings all global composite Asian industry players together

Supported by:

- Major professional Composites Associations from Australia, China, India, Japan, Malaysia, Taiwan, Thailand, etc.
- The scientific community, R&D centres, Grandes Ecoles network & Universities which today are working in close collaboration with manufacturers: A* STAR - Agency for Science, Technology and Research (Singapore), Hanyang University (South Korea), NUS (National University of Singapore), EDB (Economic Development Board), BCA (Building & Construction Authority), etc.

An affordable destination and Hotels Special Deals

Every year, JEC negotiates special hotel deals for JEC Asia visitors and exhibitors.

Thanks to a dedicated booking website, you will find more than 15 hotels in Singapore, starting from 50 S\$ per night and other attractive packages.

JEC Asia 2010 - Main topics

1/ RAW MATERIALS

Environmental-friendly Materials, including:

- Thermoset & Thermoplastic resins,
- Carbon, Glass, Aramid fibres,
- Green materials, bio-composites, natural fibres,
- Additives, pigments, glues, release agents, etc...

2/ PROCESSING

Processes Industrialisation including:

- Productivity,
- Automation,
- Valorisation of production processes: Filament Winding, Pultrusion, SMC, RTM, etc.

3/ FINAL USERS

- Environment (environmental applications in the Asian composites industry)
- Wind Energy
- Mass Transportation
- Construction / Infrastructure

INDIA
Country of Honor
JEC Asia 2010

ARE YOU LOOKING FOR NEW OPPORTUNITIES?

An average
42 useful contacts
per exhibitor

3 halls in 2009...
4 halls in 2010!

Who is exhibiting?

345+ participating companies

Breakdown of exhibitors by business sector

7 national pavilions in 2009

(Australia, China, France, Japan, India, Malaysia and Taiwan)

28 countries represented in 2009

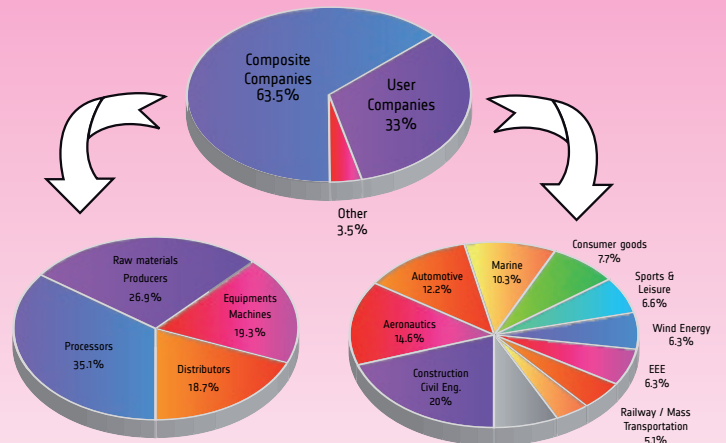

A significant majority from Asia-Pacific and the Middle-East

JEC Asia participating companies represent an exhaustive vision of what the Asian market has to offer, with every segment of the value chain of the composites industry:

- Raw material producers: carbon, glass, aramid and basalt fibres, thermoplastic and thermosetting resins, natural fibres,
- Semi-product and part processors: compounds, prepregs, core materials, fabrics, hand processes, SMC, GMT, BMC, injection, RTM, RIM, pultrusion, lamination, centrifugation, filament winding, etc.
- Equipment and software developers,
- Distributors,
- Research centres and institutes.

Who is visiting?

Highly captive visitors that you will meet nowhere else!

Top of range

Emphasize the image of your company and let come along by a Decorator dedicated throughout the presentation of the show, from design to delivery. **All-inclusive services.**

Please contact your JEC Sales Manager for more information on this offer.

350€
per sqm

ECONOMIC

Entry level

A package formula for an unbeatable price, including essential services to simplify your exhibition participation.

All-inclusive services.

Minimum surface 9 sqm

378€
per sqm

COMFORT

Functional

Choose the Comfort stand to simplify your exhibit, stress less, with a moderate price.

All-inclusive services with large stand customization possibilities.

Minimum surface 15 sqm

Equipment:

- Stand fittings: Partitions / aluminium frame / carpeting (choice of colours) / 3 shelves (straight or angled) / 1 storage room with 2 shelves + 1 coat rack
- Signage: 1 front sign per aisle featuring company name and stand number
- Electricity: 1 spotlight 100 W per 3 sq.m / Electric meter and 3 outlets
- Furniture: 1 table / 3 chairs / 1 document rack / 1 dustbin

Equipment:

- Stand fittings: Partitions / aluminium frame / carpeting (wide choice of colours) / 1 structural arch over discussion area / 1 storage room with 2 shelves + 1 coat rack / 1 glass-partitioned office unit over 24 sq.m / 1 information counter / 3 shelves (straight or angled)
- Signage: 2 colorful partition ends featuring company name and stand number / high sign tower with one company logo per side
- Electricity: 1 spotlight 100 W per 3 sq.m / Electric meter and 3 outlets (6 over 24 sq.m)
- Furniture and floral decoration: 1 table / 3 chairs / 1 high stool / 1 document rack / 1 dustbin / 1 potted plant

JEC ASIA EVENT

EXHIBITORS TESTIMONIALS

Mahindra Composites Pune, Nachiket Thakur, DGM

"I really enjoyed the experience at JEC Asia in Singapore. Looking forward for more such successful events. Congratulations to you and your team for this excellent show."

Diatex, Christine Bourbon, Sales & Marketing Manager

"For a first participation: good impression, good contacts, good traffic, good organization. This show turned out as expected and was productive. Definitely to be continued."

Hajime Co., Allen Lo, BIO

"We welcomed visitors from all over the world and had a great chance to introduce our products to them. This show is great and we are looking forward to come back next year."

Victrex Plc., Jung May, Marketing & Communication Director

"We really had a great opportunity to increase awareness and expand our business."

Huntsman, André Genton, Vice President

"This was a very satisfactory first edition. For 2009, we already decided to increase significantly the size of our booth."

Zyvax Inc., Peter Heidecker Business Development Manager

"We are impressed with the number of people, the position and knowledge of visitors."

Nida-Core, Frederic Romier, Export Manager

"Great organization, we recognize the JEC know-how. Great attendance, many different nationalities and high level contacts. Definitely a great show."

BCH, Ritika Gupta, Executive Director

"We applaud the obvious hard work and perfect organization of the show, and our heartiest congratulations to the entire JEC team for organizing such a wonderful event. Working with you was a pleasure and we look forward to many such future synergies for the benefit of the technical textile industry (including nonwovens and composites)."

Lubrizol, Sun Yew Wong Business Development Manager

"JEC Singapore is very well organized. The quality of the participants is excellent; we are pleased to participate in this great event. Keep up the good work!"

Fuji Clean Japan, Toshiro Otowa

"It was our great honor to receive JEC Innovation Awards in Singapore. Exhibition itself went very smoothly and many people stopped at our booth and asked many questions."

Singapore Air Transport Training College, Dr Sutthiphong «Spot» Srigrarom

"Thank you very much to give me talk in JEC Composite. Really appreciate. The response after my talk is very overwhelming."

96% of exhibitors satisfied or very satisfied

SHOWCASING YOUR KNOW-HOW

ADDITIONAL
EVENTS
"A LA CARTE"

1

End-user Forums / Conferences

Showcase your know-how and communicate it to a qualified audience, entirely free of charge for speakers!

JEC offers you the possibility to speak at several high-value user forums:

Aeronautics, automotive, land transportation, building & construction, wind energy, environment & recycling, natural fibres & biocomposites, marine, civil engineering, automation and more.

You'll be able to talk about your latest technological innovations to an international audience of decision-makers who represent users, raw-materials producers, processors, R&D specialists, and more.

*Letting your
experts
take the floor!*

2

Technical Sales Presentations

In 2010, for the third consecutive year, about thirty companies will give a 30-minute technical sales presentation.

All visitors have free access to these presentations, so they attract a large audience. Here is the best way for you to develop your customer base!

JEC takes care of promoting and staging your presentation before and during the three-day Show.

We receive many requests, so waste no time in booking your time slot.

*Put your
products in the
limelight!*

EXPANDING YOUR NETWORK

ADDITIONAL
EVENTS
"A LA CARTE"

4 Innovation Showcase

All Innovation Programme finalists are invited to exhibit a component or product in the Innovation Showcase, at no charge.

By entering the competition, you'll be able to draw attention to the innovative and technically excellent aspects of your composite solution, as one of 30+ solutions representing the major application sectors and exhibited in a special area.

The publicity will attract visitors to your stand and give you a competitive edge to stand out head above shoulders over your competitors.

5 Business Meetings

You are looking for establishing new relationships with raw materials producers or distributors, composites processors, machines and equipments dealers, softwares and services companies, etc.

Save time with a schedule of targeted meetings organized with exhibitors according their potential capability to fulfil your requirements.

6 Composite Tours **NEW**

New in 2010, JEC gives you the opportunity to visit factories and research centres. Come and discover new products, processes and methods developed by the local manufacturers.

JEC Composite Tours is the best way to acquire knowledge, to expand your network and make business.

Exhibit your most innovative component!

Optimize your Return on investment (ROI)

Research Centres & factories open their doors to you!

RENTAL CONDITIONS GENERAL RULES

GENERAL CONDITIONS

The terms and conditions of trade fair organisation and in particular the trade fair's opening and closing dates, duration, location, and participation fees, are set by the Organiser and are subject to change at the Organiser's initiative without giving rise to any payment claims. The Exhibitor agrees to respect and enforce the instructions set out in the Exhibitor's Guide provided. The signatory (Exhibitor) of the exhibit space rental contract is liable to the Organiser for all consequences arising out of non-compliance with the specifications.

ADMISSION

Applications must be addressed to the Organiser using the valid forms together with the down payment. Upon receipt of the application by the Organiser, the company applying for exhibit space will be deemed to have examined the trade fair rules and regulations shown on the application form and to have accepted them without reserve. Any application from a candidate who has an outstanding debt or disputed claim with the Organiser will not be taken into account. The merchandise, products, or services presented by the Exhibitor must conform to the trade fair classification. Only applications that are duly signed by an individual deemed to have the proper authority to commit the exhibiting company and which are accompanied by the down payment as set by the Organiser will be taken into consideration. Notwithstanding payment of this first installment, the billing of it, and/or its receipt, acceptance of the applicant or his/her company is subject to appraisal. In case of refusal, the Organiser will notify the applicant or his/her company of the decision and reimburse any down payment made. Acceptance is made known by official notification from the Organiser or by the remittance of an invoice or a site map specifying the stand's location and surface area. Once acceptance has been confirmed, the Exhibitor shall comply with subsequent procedures until the trade fair opens.

TERMS OF PAYMENT

Participation fees will be paid in two installments. A down payment of 50% of the total amount of which is specified in the schedule of fees will be sent by the Exhibitor to the Organiser along with the application. If the down payment is not included, the application will not be taken into consideration and no claims may be made regarding the absence of available space. An invoice in the amount of the down payment will be mailed to the Exhibitor. The balance on the participation fee invoice that is sent to the Exhibitor before the Event is due no later than 8 weeks before the opening of the Event, without discount for prepayment or cash payment. In the event that the Exhibitor registers less than 8 weeks before the Event, the fees must be paid in full along with the application. All amounts must be paid when due. Failure to do so will be subject to late

payment charges (legal monthly rate of interest: 1.5%). These will begin to accrue as soon as the Exhibitor has been officially notified.

WITHDRAWAL

Signing the application for participation constitutes a firm commitment. If the Exhibitor wishes to withdraw, he/she must notify the Organiser by registered letter with acknowledgement of receipt. If the withdrawal occurs on or before April 15th, 2010, the Exhibitor forfeits the down payment as a compensation fee. In case the down payment is still due, it must accompany the letter of withdrawal. If the withdrawal occurs between April 15th, 2010 and July 1st, 2010, 50% of the total amount of the participation fees or of the invoice is due as a compensation fee. If the withdrawal occurs on or after July 1st, 2010, 100% of the amount of the participation fees or of the invoice is due as a compensation fee, even if the Organiser is able to rent out the initially reserved space again. This is equally applicable if the Exhibitor has not taken possession of his/her space the evening before the opening of the trade fair. Any subsequent decrease in surface area will be considered as a cancellation for the subtracted surface area and subject to the penalties provided for thereof.

ALLOCATION OF SPACE

The Organiser is free to manage the allocation of stand space as and when admission is granted, taking Exhibitor requirements and the nature of the exhibited products into consideration to the extent that it is possible. The Organiser reserves the right to alter the size and layout of the space rented by the Exhibitor, as he sees fit. The fact that an exhibitor has participated in previous Shows in no way constitutes a right to a specific location for that exhibitor. The Exhibitor will be notified of stand space allocation within a reasonable time before the Event, in the form of a map. Any claims relating to the stand space assigned to the Exhibitor will be taken into consideration only if they are addressed to the Organiser in writing within fifteen days after the map has been mailed. Claims must be motivated by real and serious reasons. The Organiser will make all due efforts to satisfy justifiable requests for change in location. After the fifteen-day time limit, the Exhibitor will be assumed to have accepted the assigned location.

SUB-LETTING/CO-EXHIBITOR

Subject to prior and written authorisation from the Organiser, the Exhibitor may not assign or sub-let the space that is allocated to him/her, notably in return for payment. However, exhibitors may perform as a group, subject to Organiser approval. Acceptance of a co-exhibitor or indirect exhibitor requires additional registration. A co-exhibitor or indirect exhibitor is a company that manifests its presence at the stand of another company through a listing, an object, or literature. Any co-exhibitor, whether an indirect exhibitor or member of a group stands, will be deemed to have examined and accepted the rules and regulations for the trade fair.

CANCELLATION OF THE EVENT

Should it be impossible to make use of the necessary premises, or should fire, war,

public disaster, or any other act of God make it impossible for the trade fair to be held, the Organiser reserves the right to cancel location requests at any time by sending written notification to exhibitors, who may claim no right to set-off whatever the reasons for such a determination. Any amounts available after payment of all expenses incurred are to be divided up among exhibitors as a prorata of the amounts paid; however, it is expressly agreed that the Exhibitor may not exercise a remedy on any account against the Organiser.

ORGANISER LIABILITY

The Organiser shall in no event be liable for any loss or damage that might be suffered by exhibitors (including interference with peaceful possession and any business loss) for any reason whatsoever.

EXHIBITOR'S GUIDE

All details on Exhibitor participation in the trade fair are provided in the Exhibitor's Guide, which can be downloaded online after stand location validation. The Guide includes the order slips for electricity, water, invitations, insurance, safety procedures, and customs, among others; instructions for arranging the stands; and a number of useful addresses.

CATALOGUE

All associations, companies, brand names, and materials must be duly declared and entered into the catalogue in order to be exhibited and presented to the public. The Organiser reserves the right to refuse to allow any association, company, brand name, or material that has not been duly declared and entered in the catalogue to be exhibited. The Organiser has the exclusive right to publish the exhibition catalogue or to have it published and distributed. The Exhibitor will provide the necessary information to the catalogue's editorial staff at his/her own liability. The Organiser may on no account be held liable for omission, reproduction errors, misprints, or any other errors that may occur, and reserves the right to make changes or to group certain entries as it sees fit.

SHOOTING

The Exhibitor specifically authorises the Organiser, free of charge, to:

- Photograph and/or film the Exhibitor, the Exhibitor's team, and the products exhibited at the Exhibitor's stand,
- use these images in any media, notably for advertising, in France and abroad for an unrestricted period of time.

UNFAIR COMPETITION

Throughout the entire Event, the Exhibitor specifically shall refrain from engaging in unfair competition and/or any unsatisfactory conduct that might result in the enticement of the Show's visitors to the benefit of the Exhibitor and to the detriment of the Organiser.

CLAIMS / DISPUTES

Any claim must be sent by registered letter with acknowledgement of receipt within ten days after the end of the Event. In case of dispute, only the French text shall have probative force and only the Paris Courts of Law shall have jurisdiction.
