

Introduction to DuPont Teijin Films

Joint Venture between DuPont and Teijin

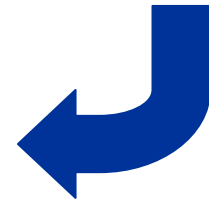

DuPont is a science company. We put science to work solving problems in ways that make life better and safer.

Enhancing the quality of life through deep insight into human nature and needs, together with the application of our creative abilities

DuPont Teijin Films™

We are the world's premier producer of polyester films, with combined sales of about \$1.1 billion and production capacity over 280,000 tons per year, employing over 3,000 people worldwide.

DuPont Teijin Films' Core Values

Safety

Safety needs to be at the forefront of each person's mind, in every task or situation, at all times. There is no job or activity that is worth doing if not done safely.

Quality

Inherent in our commitment to providing superior service for our customers is our commitment to providing the highest quality products.

Respectful Treatment

Everyone needs to be able to feel safe and supported in his or her work environment.

Ethical Behaviour

We will perform and behave ethically in all we do.
